STAGE

Brief Stage Description:

'Black Box' style space with polished parquet flooring and variable seating bank positions. No screwing into floor is permitted under any circumstance.

Space distributed load limit	7.5Kpa
Stage point load limit	Discuss with venue
Stage rake	No

Seating Bank:

Acromat retractable seating bank with 157 seats total. It can be moved to multiple configurations within the space.

Can also be stored against a wall if not being used. Contact venue to discuss seating bank position

Seating capacity with additional Floor rows installed	157 (max capacity with seating bank)
Seating capacity <u>without</u> Additional floor rows installed	106

Drapery:

Venue has drape stock that skirts the bulkheads of the entire space on tracking. There are no traditional legs or borders in the space.

Discuss drapery requirements with Technical Coordinator.

Access Equipment:

Elevated Work Platform

Not available in this space

Ladders

- 1 x 3.8m Platform
- 1x 8ft A-Frame
- 2x 6ft A-Frame

Staging Units:

10x Power Stage Podium Series Units (shared with Theatre)
1m wide by 2m long. Legs available at 400mm (with wheels) and 600mm (with feet).
Carpeted tops. 2x 400mm step units and 1x 600mm step unit available.
Load limit: 500kg distributed, 150kg point load.

Note: Using more **than 4 units may incur a charge for moving between venues.**

Stage Covers:

Style	Black Vinyl
Dimensions	4x 15m x 1.6m Strips
Colour	Black

(please note this is not branded Tarkett, it is just a black floor vinyl)

Loading Dock:

Access

Via front doors of building for all small to medium items. A standard public lift is available to move equipment to upper level.

Large set and props must be taken via ramps which are 80m long at 10 degree gradient.

Any item that will not fit through a standard door needs to be discussed with the Technical Coordinator prior to bump in.

Restrictions / Obstructions

80m of ramping, 1 x 20mm obstruction protruding from floor of external door

Additional Rigging Notes

Fire sprinklers currently limit ability to rig in the roof.
Please contact Technical Coordinator to discuss

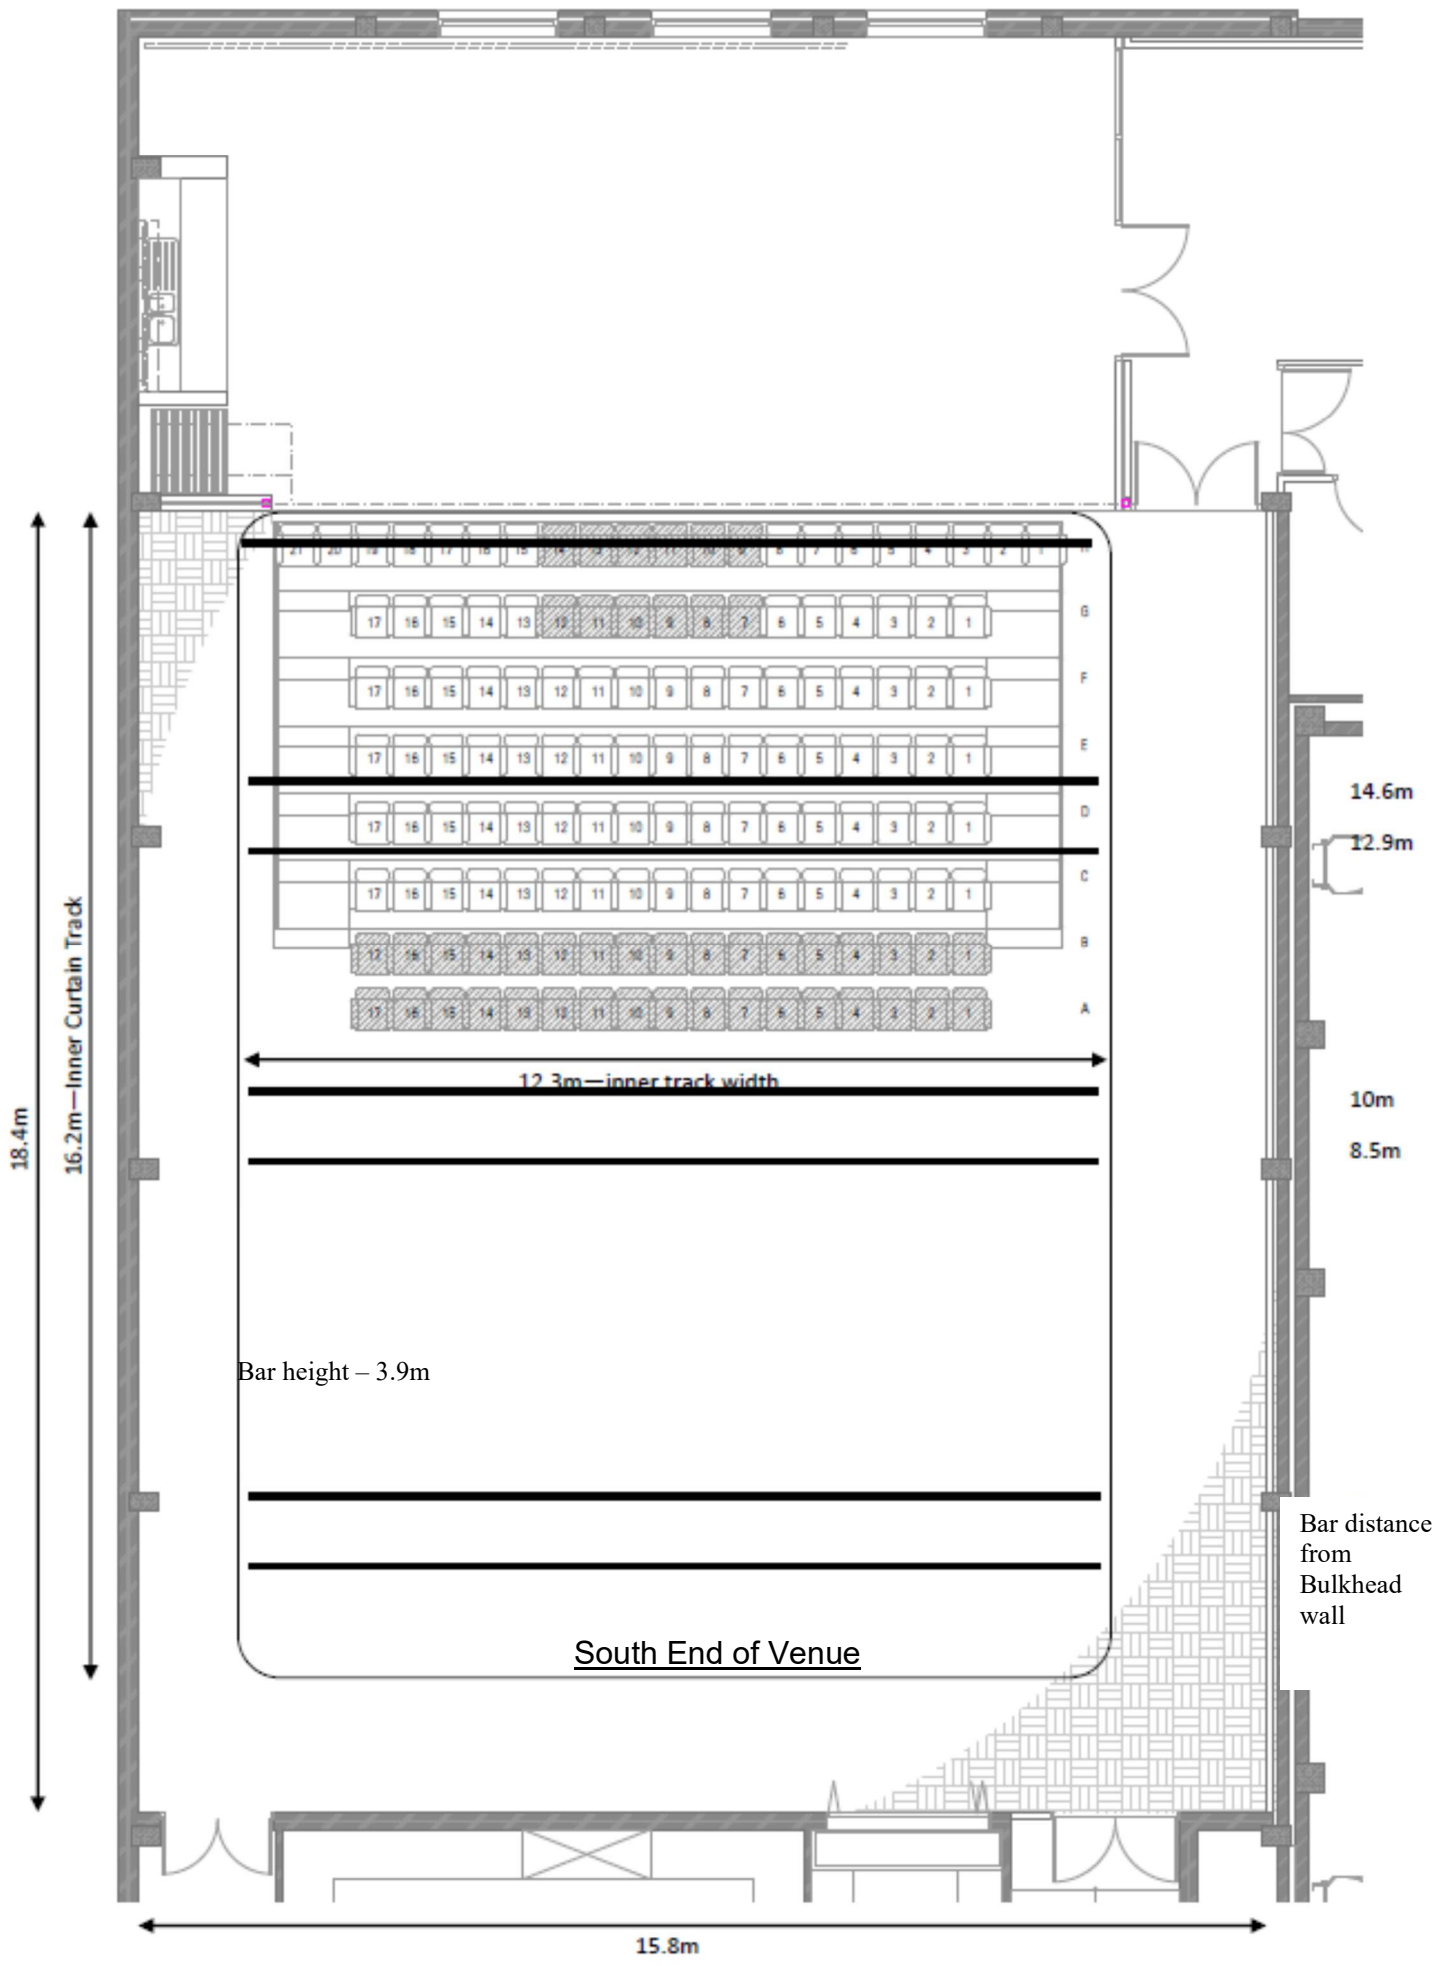

Fixing points are available around the space on the bulkhead for fixing booms or items less than 100kg to wall.

Height to rigging bars is 3.9m. Floor to ceiling is 4m.

Staging Notes:

All flown items must be rigged with rated equipment and is subject to approval by a venue representative.

Limited rigging gear available in house. Including lifting straps, shackles and pulleys.

Power:

3 Phase Outlets

Venue Information:

The Lighthouse Theatre operates a Main Theatre, a smaller multi-purpose Studio Space and a Meeting Room. The Main Theatre is a proscenium arch theatre seating 584. The Studio has flexible tiered seating for 157 for performances but can also be used for conferences, wedding receptions and dinner dances. The Meeting Room is designed for round table, classroom or theatre style meetings/events for up to 50 people. This room also doubles as the Dressing Room for Studio performances.

We are extremely fortunate at the Lighthouse Theatre to have a dedicated team of Volunteers to assist with ushering, preparing hot beverages and administration tasks.

A core team of 6 people run the Centre, which is owned and operated by Warrnambool City Council. There are limited casual staff available for production work.

The venue is located in the heart of the Warrnambool CBD and within walking distance of Restaurants, Accommodation houses, Banks and Supermarkets.
